"MILK MATTERS"

SEMINAR WITH PATRICIA HATHERLY

Breastfeeding, Clinical Issues; Miasms and the Lac family

9th October, 2010

PATRICIA HATHERLY

Patricia Hatherly BA DipEd BHSc (Hom) is an AROH- registered classical homœopath; naturopath and reiki master who has, for 15 years, run a busy clinical practice in the western suburbs of Brisbane.

She has, however, spent over 35 years working with families (particularly mothers and babies) as a Lactation Consultant; Childbirth Educator and Parent Effectiveness Instructor.

This unusual combination of skills, added to the wealth of personal experience acquired through mothering 3 children (all breastfed), gives her a unique perspective on all matters pertaining to lactation.

Patricia is a clinical supervisor and also a lecturer in Materia Medica, at the Brisbane campus of the Endeavour College of Natural Medicine. She is the Immediate Past President of the Australian Homoeopathic Association (AHA) and is the AHA representative to the ICH.

She is the author of *The Homœopathic Physician's Guide to Lactation* and **The Lacs** *A Materia Medica & Repertory;* and, as well as her e-Newsletter *Milk Matters*, is a regular contributor to journals both national and international.

THE SEMINAR

Morning session:

- ➤ Breastfeeding: political & economic issues
- > The Anatomy and Physiology of lactation
- ➤ The Biochemistry of lactation
- ➤ The homoeopathic and clinical management of common breastfeeding problems:
